How to store your blanket

When your blanket is not in use, it should be stored as the manufacturer recommends and as follows:

Do:

- ▶ Let the blanket cool down before storing.
- ▶ Loosely roll the blanket and store it in a cool, dry place.

Don't:

- ▶ Use any moth-proofing chemicals.
- ▶ Place heavy items on top of the blanket while it is being stored.
- ▶ Fold your electric blanket because this can damage the internal wiring.

Visual Checks

Using your blanket:

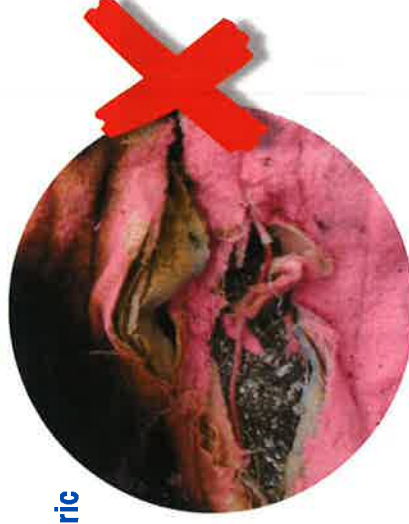

- ▶ Read and follow the manufacturer's instructions before use
- ▶ Remember to keep the instructions in a safe place for future reference
- ▶ Examine your blanket regularly for signs of damage and wear
- ▶ Use the blanket only for the purpose the manufacturer intended, i.e.
 - over-blankets must only be positioned above the occupant of the bed
 - under-blankets must only be positioned under the occupant of the bed
- ▶ Check the manufacturer's instructions for suitability to wash your blanket.
