**Premises Address:** 71-73 Steyne Road

### Responsible Person: The Responsible Person

I, Richard Fowler on behalf of East Sussex Fire Authority, hereby give you notice that the Fire Authority is of the opinion that any change made to the premises, or the use to which they are put, may constitute a serious risk to relevant persons (see notes) due to the following: -

The arrangement of the means of escape from the rear building (currently being used as laboratories and an IT Suite) is via either one of two routes through the front building, separated from each other by fire resisting construction (as shown on the plan by Fusion Fire Engineering dated 19/11/2013, Doc Ref: BVR, 2010, 03). A traffic light system is in place, which is linked to the fire alarm system, to identify which of the two routes is not affected by fire and therefore is the route to be used.

The Fire Authority hereby directs that you, as the responsible person must, before making any of the changes below, which may result in a significant increase in risk, notify the Fire Authority of the proposed changes.

The changes referred to above are: -

- (a) a change to the premises,
- (b) a change to the services, fittings or equipment in or on the premises,
- (c) an increase in the quantities of dangerous substances which are in or on the premises, or
- (d) a change to the use of the premises;

The Fire Authority also directs that, in addition to the notification referred to above, as a responsible person you must: -

- (a) take all reasonable steps to notify the terms of this Notice to any other person, or persons, who have to any extent control of the premises, insofar as the requirements in articles 8 to 22 of the Regulatory Reform (Fire Safety) Order 2005, or in regulations made under Article 24, relates to matters under his, or their, control,
- (b) carry out or review the risk assessment and record the significant findings, including the measures which have been taken or will be taken and identify any group of persons identified by the risk assessment as being especially at risk,
- (c) record the arrangements as are appropriate, having regard to the size of his undertaking and the nature of its activities, for the effective planning, organisation, control, monitoring and review of the preventative and protective measures, and
- (d) before making any changes referred to in the above paragraph, send to the Fire Authority a copy of the risk assessment and summary of the changes proposed to be made to the existing general fire precautions.

This Notice shall be deemed to be in force until such time as it is withdrawn by the Fire Authority or cancelled by the Court. You have a right to appeal against this Notice (see notes), by way of complaint for an order, to the Clerk of the Court of the Magistrates' Court acting for the petty sessions area in which your premises is located. If you wish to appeal, you must do so within 21 days of the date of this Notice.

Signature  Date 1 March 2017

**NOTES TO ACCOMPANY ALTERATIONS NOTICE  
SERVED UNDER ARTICLE 29 OF THE  
REGULATORY REFORM (FIRE SAFETY) ORDER 2005**

1. Contravention of any requirement imposed by an Alterations Notice is an offence under Article 32 of The Regulatory Reform (Fire Safety) Order 2005 and renders the offender liable, on summary conviction, to a fine not exceeding the statutory maximum or, on conviction on indictment, to an unlimited fine, or imprisonment for a term not exceeding two years, or both.
2. In any proceedings for an offence referred to in Note 1, where the commission by any person of an offence under the Order is due to the act or default of some other person, that person is guilty of the offence, and a person may be charged with and convicted of the offence whether or not proceedings are taken against the first mentioned person.
3. Nothing in the Order operates so as to afford an employer a defence in any criminal proceedings for a contravention of those provisions by reason of any act or default of an employee or person nominated to implement measures for fire-fighting and procedures for serious and imminent danger and for danger areas, and appointed to assist him/her in undertaking such preventive and protective measures as necessary.
4. Subject to Note 3, in any proceedings for an offence under the Order, except for a failure to comply with articles 8(a) (Duty to take general fire precautions) or 12 (Elimination or reduction of risks from dangerous substances), it is a defence for the person charged to prove that he/she took all reasonable precautions and exercised due diligence to avoid the commission of such an offence.
5. In any proceedings for an offence under the Order consisting of a failure to comply with a duty or requirement so far as is reasonably practicable, it is for the accused to prove that it was not reasonably practicable to do more than was in fact done to satisfy the duty or requirement.

The bringing of an appeal has the effect of suspending the operation of the Notice until the appeal is finally disposed of or, if the appeal is withdrawn, until the withdrawal of the appeal.
