Employer contribution rates

Employer contributions are determined by the scheme actuary (currently the Government Actuary's Department) during the scheme valuation process.

Following the 2016 valuation of the Firefighters' Pension Schemes, page 3 of the [Scheme Specific Employer Contribution Rates](#) sets out the contribution rates below from April 2019 to March 2023:

Table 4. FPS employer contribution rates

1992 Scheme % of pay	2006 Scheme % of pay	2015 Scheme % of pay
37.3	27.4	28.8

The employer contribution rate for special members of FPS 2006 is the same as the FPS 1992 employer contribution rate.

Ill-health additional contributions

Previous employer ill-health additional contributions continue to apply. Where a member has retired with an entitlement to the immediate payment of an ill-health pension, the FRA must pay an ill-health additional contribution. The ill-health additional contribution across the 1992, 2006 and 2015 schemes will continue as follows:

- Higher tier ill-health additional contribution: 4 times pensionable pay (over the last 12 months)
- Lower tier ill-health additional contribution: 2 times pensionable pay (over the last 12 months)
