Leadership & Behavioural Framework

Core Code and Code of Ethics – LBF statement

East Sussex Fire Authority and East Sussex Fire and Rescue is committed to embedding the five key principles in the national Core Code, which sits alongside the Code of Ethics Fire Standard developed by the Fire Standards Board. Our Leadership and Behavioural Framework helps us deliver against these principles.

Our Commitment

Our behaviour is central to effectively serving our community. We will ensure the resources, policies and procedures are in place, so our organisation acts in accordance with the Core Code.

Through adhering to the Core Code, we will strive to create a positive, responsible, innovative, open, and challenging working environment in which ability and delivery is valued, encouraged, developed, recognised, and rewarded.

We are committed to continually improving the behaviours within the sector at all levels and ensuring that employees treat each other with humanity, dignity, and respect.

We will always act appropriately to address behaviour which falls below the standards set in the Core Code.

Foreword

Leadership is required and happens at every level of the Organisation, whether it is through formal management structures or through informal influence. This Framework is relevant to all staff, including our volunteers, whether in a formal management role or not as it sets out the way we in which we can be expected to operate both individually and as teams.

Our ESFRS Leadership and behavioural framework has six key areas for focus:

- We are committed to strengthening our leadership and line management to support organisational change and improved community outcomes.
- We are committed to effective communication and constructive engagement across the Organisation that engenders continuous feedback and continuous improvement both organisationally and individually.
- We need strong and effective leadership at all levels to ensure that everything we do aligns with the purpose and commitments of the fire and rescue service, both nationally and locally.
- All staff and volunteers have a responsibility to demonstrate our values and behaviours and we expect our managers to lead our people to achieve a positive culture by diversifying our staff and creating a fair and equal place to work.
- Our managers will take responsibility and lead teams to deliver measurable outcomes, whilst being actively involved in their own learning and the learning of our future leaders.

- We will recognise and value effective leadership and leadership learning will be supported and embedded throughout our organisation.

Leadership is key to all of these areas and has never been more important at every level of the organisation. Delivering excellent outcomes to our community, and being adaptable to the evolving requirements of a 'modern fire and rescue service' is key to our leadership and management focus for now and the future.

More than ever before, we need leaders who are both operationally and professionally competent as well as being capable of creating and delivering a compelling vision for the future to inspire and motivate others. We need resilient leaders who will take responsibility for continuous improvement in our performance as a public service and bring other people with them.

We need leaders who are able to collaborate across our different functions internally as well as being able to cross traditional boundaries with other agencies and businesses to deliver community leadership and achieve more efficient, effective and joined up services for the public.

Our Leadership and Behavioural Framework clearly defines the behaviours required across the organisation. This framework details a simple set of expected behaviours and aligns to the organisational competence framework and development pathway which is used to support our current and next generation leaders.

“We need leaders who are capable of creating and delivering a compelling vision for the future to inspire and motivate others”

In setting this framework, we recognise that throughout our career there is always something we can focus on to improve. This means a change in focus from outputs to outcomes – leadership is not defined by what courses we have attended or what qualifications we have achieved, neither is it defined by

your role or level of responsibility within the organisation. But instead by the difference we are making to the people around us and to the performance of the team and organisation. This difference is then ultimately experienced by our communities through improved service delivery.

Introducing the Leadership & Behavioural Framework

Personal Impact & Resilience

ensures we value, respect and promote inclusion, equality and diversity. It's about being a positive presence on others, having personal integrity and an ability to self-manage. The focus is on self and how a manager uses leadership to create a positive, open-working environment focusing on both ethical & distributed leadership and the wellbeing of our staff.

Authentic Leadership

is about building high-performing teams and developing people to their full potential. It's about communicating with integrity, being open and honest to foster trust and building collaborative working partnerships. An ambassador and role model for the fire and rescue service. The focus is on 'team' and how a manager uses authentic leadership to create high performing services.

Organisational Effectiveness

is ensuring everything we do is linked to the organisational purpose, commitments and values ensuring decisions and actions are beneficial to the community we serve. The focus is on the organisation and how you use leadership to continuously improve, identify efficiencies, innovate and change.

Service Delivery

is about delivering high performing services now and into the future. It's about intelligent problem solving with an outcome focussed approach, continuous improvement and value for money to our communities of East Sussex, Brighton & Hove. The focus is on making effective use of our resources and how a manager uses leadership to produce outcome-focussed results which meet the customer needs.

This Leadership & Behavioural Framework provides a consistent approach to leadership and development for all staff and volunteers, irrespective of role or function. The framework brings together the 'what and the how'; combining traditional operational and professional competence with behavioural expectations. The behaviours are described below and the Development Pathways are outlined in a separate document.

The framework is built around four quadrants as above, and is measured at four levels (see next page), with each building on the previous. The critical feature of this Framework is that it's relevant to all roles, including our volunteers and uses defined and observable measures to assess the potential and performance of our staff on a day to day basis.

Leadership Expectations:

To lead the organisation forward in an evolving uncertain operating environment. There are different levels of expectation according to your responsibility. We need individuals who are capable of:

- Creating a compelling vision that is people centred whilst empowering others to buy in and commit to that vision.
- Leading collaboratively across departments, the organisation and being a community leader.
- Being resilient and adaptable within an evolving modern Service.
- Being authentic and utilising high levels of emotional intelligence to support people in achieving the goals of the organisation.
- Being in the present, but also horizon scanning.
- Promoting and developing community and distributed leadership (i.e. leadership at all levels).
- Acting as ambassador for learning through both personal practice and creating and sustaining learning organisations.
- Embracing inclusion, diversity, innovation, and being open to alternative perspectives.
- Demonstrating and promoting humility & compassion for 'self' and others, with a focus on well-being, improvement and accountability.

We have devised a common specification for core development pathway, based on identified needs, which will be relevant to all across the organisation. There will be a focus on blended learning which maximises use of different learning methodologies to enhance learning.

Personal Impact & Resilience	Authentic Leadership	Service Delivery	Organisational Effectiveness
<ul style="list-style-type: none"> • Displays inconsistent behaviour and fails to keep commitments. • Fails to understand or appreciate impact on others; does not consider situation from others' viewpoint. • Spends little time on personal and professional development activities. • Exhibits aggressive, defensive, overpowering, bullying, or defensive behaviour. • Does not lead by example or stand by own principles or spoken beliefs. • Offers advice beyond boundaries of knowledge or experience. • Applies preconceptions and stereotyping in dealings with others. • Is unwilling to share expertise with others; or withholds relevant information, expertise or knowledge. • Does not contribute willingly to the team and adopts a passive role. • Refuses to acknowledge personal mistakes. 	<ul style="list-style-type: none"> • Displays obstructive behaviours rather than progressive ones. • Tends to apportion blame and accountability to others when things go wrong. • Makes unrealistic promises about what can be delivered. • Unwilling to recognise, or deal with, capability or performance issues in self or others; avoids difficult conversations and confrontation. • Challenges others in a way that intimidates or undermines. • Gives little time to the development of peers and colleagues. • Shows stubbornness in the face of opposition, even when proved wrong. • Shows general lack of confidence in own knowledge, abilities and judgements. • Sits on the fence rather than taking a clear stand. • Shows little consideration or respect for other colleagues. • Fails to allow others to put in different views in meetings. 	<ul style="list-style-type: none"> • Does not focus on a drive to improve service delivery. • Is preoccupied with own or hidden agenda rather than the needs of staff, customers, clients or partner agencies. • Doesn't take into account local needs. • Fails to appreciate the need to engage the support of stakeholders. • Consistently works in isolation, pursuing own solution without involvement of appropriate stakeholders. • Fails to build contact with people beyond own work area. • Fails to recognise the value of diversity. • Works in an unfocused way, failing to prioritise, keep track of progress, or adapt approach when deadlines, targets or standards are threatened or changed. • Gives up in the face of obstacles and does not demonstrate a sense of personal responsibility for delivery. 	<ul style="list-style-type: none"> • Obstructive towards learning or progress. • Fails to see relevance of wider organisation issues, sector trends or contextual developments to organisation or role; fails to communicate these. • Needs to know all the answers, rather than the right method of enquiry. • Rejects ideas quickly or spontaneously without reflection or adequate insights. • Is focused on the present and the past and has a low interest in emergent or future issues. • Avoids long-standing, difficult or sensitive issues. • Focuses on symptoms rather than causes. • Fails to understand organisational decision-making processes (explicit or implicit) and how these translate into personal authorities. • Overlooks inappropriate behaviour with regard to the organisation's processes, values and expected behaviours.

Please note – these are not to be used by themselves to performance manage people or to focus on everything they are doing wrong, more as a warning sign that someone may need some development around these areas. They could be useful in a behavioural capability scenario where people are struggling to express what needs to be improved.
